

Heating element for ERSA Multitip 08

The model 901 heating element for the ERSA Multitip 08 is a precise spare part for the reliable heating of soldering irons in the Multitip series. With a rated power of 8 W, it ensures a constant and even temperature at the soldering tip, while the low weight of 17 g makes it easy to integrate into the handpiece.

This heating element ensures stable soldering conditions, which are crucial for clean and precise work results, especially with sensitive electronic components. It is ideal for professional applications in electronics production, repair and precision mechanics, where exact temperature control, efficiency and durability of the tool are required.

Item no.	WL23483
Model	901
Manufacturer	ERSA
Manufacturer article no.	E090100
GPSR manufacturer data	ERSA GmbH Leonhard-Karl-Strasse 24 DE-97877 Wertheim www.ersa.de
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Rated power	8 W
