

Independent 75 Gas Soldering Professional Set, 0G07400141

- ERSA Independent 75 Gas Soldering Set "Professional
- with extensive equipment in highest quality, small, handy and in addition still practically packed
- The ergonomic, antistatic gas soldering iron with piezo ignition is ideal for service and maintenance work, especially when there is no power supply.
- With its continuously adjustable power of 15 - 75 W (compare with electric soldering iron), maximum soldering tip temperatures of up to 500°C can be achieved.
- The Independent is operated with commercially available butane lighter gas.
- The set is delivered in a practical transport case
- In addition to the basic set equipment, the "Profi-Set" contains two further soldering tips, a glow knife for cutting rigid foams, a hot gas nozzle, a reflector plate for shrink tubing and a flame nozzle for micro-welding.
- Like its big brother, the Independent 130, the Independent 75 is also available in the two set variants as a basic set and a professional set.
- The Independent 75 "Profi Set" includes a gas soldering iron with mounted soldering tip,

three additional soldering tips, a glow knife for forming and cutting rigid foams, a hot gas nozzle and a reflector plate for processing shrink tubing and soldering SMD components, a flame nozzle for micro-welding and a sponge container with cleaning sponge.

- Operating time with one gas filling: 60 min

item number	WL23493
model	G07400141
manufacturer	ERSA
manufacturer item number	0G07400141
length with packaging	255 mm
width with packaging	82 mm
height with packaging	37 mm
order unit	1 set
content unit	1 set
RoHS conform	yes
nominal power	75 W
warm-up period	46 s
handle type	gas soldering iron
temperature max.	580 °C
suitable tips	G072
ignition	piezo
design soldering tip	nickel-plated
soldering tip diameter	2.4 mm
suitable handle	0G070KN
