

## c-mount adapter

---

---

The C-mount adapter model OI 202.35.015 from 4H JENA enables the simple connection of C-mount cameras to the DSZT-44 microscope type. With a magnification factor of 0.35x, the adapter ensures an adapted image display and supports optimum coordination between microscope optics and camera.

Thanks to its precise design, the TV adapter guarantees a stable connection and reliable image transmission, making it particularly suitable for applications in laboratories, quality control or education. Installation is straightforward and enables quick integration into existing microscope systems.

The C-mount adapter is therefore a practical solution for digital image acquisition and documentation when microscopes are to be combined with cameras.

- TV adapter 0.35x c-mount adapter
- For using C-mount cameras on the DSZT-44 microscope
