Dosing device Performus I, analog, without timer, 0-7 bar (0-100 psi)

The Performus I analog dispenser from Nordson EFD is ideal for applications where time-controlled dispensing is not required. It is versatile and particularly suitable for spot, bead and fill applications with different materials. The compact device is equipped with an electric foot switch and vacuum control, which effectively prevents dripping of low-viscosity materials. The dispenser is designed for user-controlled dispensing applications where only manual dispensing is possible and is supplied without accessories.

Item no.	**WL23903**
Model	7012330
Manufacturer	NORDSON EFD
Manufacturer article no.	7012330
GPSR manufacturer data	Nordson Deutschland GmbH Kapellenstraße 12 DE-85622 Feldkirchen www.nordson.com
