

ESD earthing plug, 3x 10 mm push-button, yellow

The Safeguard ESD grounding plug is used to protect electronic devices and components from damage caused by electrostatic discharge. This plug is yellow in color and has 3 push buttons, each of which is 10mm in size. By using this plug, you can discharge static electricity from people or objects to prevent damage to electronic devices and components. Each of the 3 push buttons has a size of 10mm, which makes it possible to ensure easy handling. The yellow design of the plug helps to quickly identify and access it. By using Safeguard's ESD grounding plug, you can be sure that electronics in the environment are protected from damage caused by electrostatic discharge.
