

Cartridge, transparent, 5 cc

The high manufacturing accuracy of the inner diameter ensures a consistent dispensing volume of the entire cartridge content. The cartridges are made of silicone- and chloride-free polypropylene and are available in three different colours: Transparent cartridges - these are used for most applications. Amber-coloured cartridges - these protect the contents from UV light (up to 520 nm) and at the same time allow visual monitoring of the cartridge contents. Black cartridges - these completely block UV light. Available in packaging units of 50 pieces.

item number	WL24529
model	905-N / 892002
manufacturer	OKI
order unit	1 PU
content unit	50 piece

Products for the electronic industry

Colour	transparent
size dosing cartridge	5 cm ³
