

## Dosing needle 0.5", straight, gauge 15, amber, straight tip shape

The dispensing needle 1/2", straight, GA 15, amber from Nordson EFD offers outstanding performance for precise material applications. These TE series needles consist of a silicone and chloride-free polypropylene body with a double helix thread and a stainless steel cannula. With electrolytically polished needles for consistent material flow, they are ideal for a variety of assembly applications. Available in packs of 50.

- Silicone and chloride-free polypropylene body
- Double helix thread
- Stainless steel cannula
- Burr-free
- Electrolytically polished cannula for constant material flow
