

Dosing needle 0.5", straight, gauge 18, green, straight tip shape

The dispensing needle 1/2", straight, GA 18, green from Nordson EFD is an excellent choice for precise material applications. This TE series needle consists of a silicone and chloride-free polypropylene body with a double helix thread and a stainless steel cannula. The burr-free, electrolytically polished needles guarantee a constant material flow and are available in packaging units of 50 pieces. With a length of 1/2" and an inner diameter of 0.84 mm, it is ideal for a variety of applications.

- Silicone and chloride-free polypropylene body
- Double helix thread
- Stainless steel cannula
- Burr-free
- Electrolytically polished cannula for constant material flow

Item no.	WL24566
Model	918050-TE / 891218
