

Dispensing needle 1", straight, gauge 21, purple, straight

The TE series needles consist of a silicone- and chloride-free polypropylene body with a double helix thread and a stainless steel cannula. The dosing needles are burr-free and have electrolytically polished cannulas that guarantee a constant material flow. Available in packaging units of 50 pieces.

- Silicone and chloride-free polypropylene body
- Double helix thread
- Stainless steel cannula
- Burr-free
- Electrolytically polished cannula for constant material flow
