

## Rework tip RxP series Quad for PLCC 44

RxP-Blade/Quad Solder Tip Cartridges are the rework tips for the Metcal MFR-series soldering systems. The second letter in the part number designates the temperature series. RFP-Cartridges are nominally 390 °C. Metcal recommends the RFP temperature series for most applications. However, there is a higher temperature range designated RCP, nominally 450 °C, for high temperature and thermally demanding applications. Can be used with leaded and lead-free solder. The Metcal SmartHeat®-Technology“ will adjust the power levels during soldering to suit the application.

- for most standard applications
- suitable for MFR-1100 and MFR-2200 series
- suitable for PLCC 44

item number

WL24746

model

RFP-QD6

Products for the electronic industry

manufacturer	OKI
manufacturer item number	RFP-QD6
GPSR manufacturer information	OK International Ltd Eagle Close, Chandlers Ford GB-SO53 4NF Hampshire www.ok-international.com
order unit	1 piece
content unit	1 piece
product series	RxP Series
type of tip	Quad-Rework Lötpatronen
Tip series	RxP
SMT type	PLCC 44
tip shape	quad
tip alignment	straight
suitable handle	MFR-H1_SC
ESD safe	no
