

ESD air cushion bag, pink, dissipative, 175 x 250 mm

The ESD air bubble bag in pink from SafeGuard offers reliable protection for sensitive electronic components. With a surface resistance of $R_{pp} < 1 \times 10^{10} \Omega$ and a stud diameter of 10 mm, it ensures the safe dissipation of electrostatic charges. The air bubble bag is made of dissipative LDPE, is free from amines and offers mechanical protection for the contents. With a film thickness of $55 \mu\text{m} \pm 10\%$ and a size of 175 x 250 mm, it is very versatile. The bag meets the requirements of DIN EN 61340-5-1 and is therefore ESD-certified. Ideal for the safe transportation and storage of electronic components.

- Surface resistance: $R_{pp} < 1 \times 10^{10} \Omega$
- stud diameter: 10 mm
- properties: Conductive LDPE, without amines, mechanical protection
- 3-ply
- meets the requirements of DIN EN 61340-5-1

item number

WL24849

Products for the electronic industry

model	SG-LPT-ROSA-ABL-55
manufacturer	SAFEGUARD
manufacturer item number	SG-LPT-ROSA-ABL-55-250X175
length	250 mm
width	175 mm
order unit	1 piece
content unit	1 piece
colour	pink
Colour	rose
film thickness	55µm +/- 10 %
property packaging	dissipative
ESD safe	yes

Other versions

item number	length x width
