

## ESD tubular film pink permanently conductive, roll, 250 m x 150 mm, thickness 0.09 mm

SafeGuard's pink ESD films are ideal for the professional packaging of products within an ESD protection zone and serve primarily as dust protection. The ESD foil is printed with the ESD and recycle symbol, the lot number and the SafeGuard logo.

- Polyethylene pink with ESD and recycle symbol, LOT-No.
- amine-free, weldable, permanently conductive

item number	WL24861
model	ESD-Schlauchfolienrolle 150mm
manufacturer	SM
length	250000 mm
width	150 mm
order unit	1 rolls
content unit	1 rolls

Products for the electronic industry

colour manufacturer	pink
Colour	rose
material	polyethylene
film thickness	0,09 mm
Zip	no
property packaging	permanent dissipative
ESD safe	yes
