

ESD tubular film pink permanently conductive, roll, 250 m x 150 mm, thickness 0.09 mm

SafeGuard's pink ESD films are ideal for the professional packaging of products within an ESD protection zone and serve primarily as dust protection. The ESD foil is printed with the ESD and recycle symbol, the lot number and the SafeGuard logo.

- Polyethylene pink with ESD and recycle symbol, LOT-No.
- amine-free, weldable, permanently conductive

Item no.	WL24861
Model	ESD-Schlauchfolienrolle 150mm
Manufacturer	SAFEGUARD
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
Length	250000 mm

Width	150 mm
Sales unit	1 rolls
Content unit	1 rolls
Manufacturer colour information	pink
Colour	rose
Material	polyethylene
Incl. battery	no
Film thickness	0,09 mm
Zip closure	no
Packaging properties	permanent dissipative
ESD certification according to IEC 61340-5-1:2016	yes
ESD compliant	yes
