

## ESD tubular film pink permanently conductive, roll, 250 m x 200 mm, thickness 0.09 mm

### Description

SafeGuard's pink ESD films are ideal for the professional packaging of products within an ESD protection zone and serve primarily as dust protection. The ESD foil is printed with the ESD and recycle symbol, the lot number and the SafeGuard logo.

- Polyethylene pink with ESD and recycle symbol, LOT-No.
- amine-free, weldable, permanently conductive

### Product details

item number	WL24862
manufacturer	SAFEGUARD
colour manufacturer	pink
model	SafeGuard ESD
length	250000 mm
width	200 mm
order unit	roll
content unit	250 m

Products for the electronic industry

material	polyethylene
film thickness	0,09 mm
zip	no
property packaging	permanent dissipative
