

Nano soldering iron, NT105-A

The smallest JBC handle for soldering very small components that require the highest precision, such as chips 0402, 0201, 01005, etc.

The NT105-A has the shortest distance between tip and handle and allows better manual control of the tool, even when using a microscope.

The handle provides a soft and comfortable feel and prevents fingers from slipping.

- compatible with NASE and NANE Nano Stations
- Spare part: Grip for the handle - 0018662
- Supplied without soldering tip

item number	WL25079
model	NT105-A
manufacturer	JBC
manufacturer item number	NT105-A
GPSR manufacturer information	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
length with packaging	235 mm
width with packaging	40 mm
height with packaging	40 mm
order unit	1 piece
content unit	1 piece
nominal power	15 W
handle type	soldering iron
suitable tips	C105
length cable	1.2 m
suitable control unit	NANE- 2-Tool Nano Soldering Station, NASE - 2-Tool Nano Rework Station
ESD safe	yes
