

Desoldering iron for MD 2964/2965 or DS-2A/DV-2A, DS360-A

The DS360 micro desoldering iron is used for precision desoldering work on SMD or conventional components.

It is capable of delivering up to 40 W.

The JBC Most Efficient Soldering System and the suction power of the MSE or MVE pumps ensure optimum quality of the work carried out.

DS360 is light and easy to clean and maintain. Both the disposable cardboard hose and the filter sets can be easily replaced.

It uses the C360 range of tips with internal diameters from 0.6 mm to 1.5 mm.

item number	WL25142
model	DS360-A
manufacturer	JBC
manufacturer item number	DS360-A
GPSR manufacturer information	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
length with packaging	300 mm
width with packaging	125 mm
height with packaging	65 mm
scope of supply	desoldering iron Tips: C360002 x 5, C360004 x 5 Filter: 0008473 x 2

Cleaning Brush: 0008297
Solder Collector: 0008467 x 2
Cleaning Rods: 0008466

order unit	1 piece
content unit	1 piece
nominal power	30 W
voltage	24 V
handle type	soldering tweezers
with soldering tip	yes
suitable stand	DS-SD
suitable tips	C360
suitable control unit	DI, DD, DM, RM
ESD safe	yes
