

Convection Heated Hand Tool Portable 230V

- Versatile hot air unit for soldering and desoldering applications
- Robust and compact design
- Analog controls for airflow and heat
- A closed feedback circuit controls the temperature
- Unique low-noise air pump (less than 45 db) for precise airflow control
- Fully ESD compliant
- Surface resistance: $10^5 - 10^6$ Ohm
- Noise level: less than 46 dBA

item number	WL25544
model	HCT-900-21
manufacturer	OKI
manufacturer item number	HCT-900-21

Products for the electronic industry

scope of supply

control unit
handpiece
5mm nozzle H-D50

order unit	1 piece
content unit	1 piece
nominal power	320 W
voltage	230 V
temperature range °C	100 – 500 °C
Air Flow	6-25 LPM
ESD safe	no
