

Hot air hose for JT-2A

The hot air hose for JT-2A from JBC is an essential accessory for precise soldering work. It is specially designed for use with the JT-2A hot air station and ensures optimum heat transfer. The hose is equipped with an ergonomic handle for comfortable handling and to reduce fatigue during long periods of work. The connection of the hose is a precise fit and ensures a secure connection to the hot air station, ensuring reliable performance. Ideal for professional users who value efficiency and precision. Discover the hot air hose for JT-2A at Weidinger.eu and optimize your soldering processes.
with handle and connection for JT-2A
