

## XT solder stamp 10 x 4 mm, replacement

---

The XT soldering stamp from Weller is a spare part from the XT series and is intended for the WXP 120, WP 120 and WP 120IG handpieces.

With a tip area of 10 x 4 mm, the soldering stamp is particularly suitable for applications where larger contact surfaces need to be heated evenly. The beveled alignment facilitates precise contact with the solder joint.

Thanks to the fast-response heating element technology, the heat is transferred quickly, which enables efficient and controlled work.
