

Pair of tweezer tips TxP series, blade-shaped 1 x 14 mm

TxP-Tweezer Tip Cartridges are the standard tweezer tip range for the Metcal MFR-series soldering systems. TFP-Tweezer tips are nominally 390 °C. Metcal recommends the TFP-series for most applications. The TCP Tweezer tips are nominally 450 °C and recommended for high temperature and thermally demanding applications. Can be used with leaded and lead-free solder. The Metcal "SmartHeat®-Technology" adjusts power levels automatically based on the demand of the application.

- suitable for MFR-1100 and MFR-2200
- suitable for ceramics and applications with high thermal requirements
