PC cable DVI-HDMI-DVI

The PC cable model 108395 from TAGARNO is equipped with DVI and HDMI connections and enables a reliable connection between compatible devices such as camera systems, monitors or PCs. The combination of DVI and HDMI interfaces makes the cable suitable for flexible use in different setups.

With a length of 2 meters, it offers sufficient scope for convenient installation without impairing signal transmission. The stable processing ensures a secure connection and constant image transmission in daily use.

The cable is a practical solution for workstations where reliable signal transmission between different image sources and display devices is required.

Item no.	**WL27052**

Model	108395
Manufacturer	TAGARNO
GPSR manufacturer data	TAGARNO AS Finlandsvej 2 DK-8700 Horsens www.tagarno.com
Length	2000 mm
Sales unit	1 piece
Content unit	1 piece
ESD compliant	no
