Soldering tip XT series, chisel-shaped, 0.8 x 0.4 mm

The XT-3008 soldering tip from PLATO's XT series is a fine chisel-shaped tip measuring 0.8 x 0.4 mm. It is specially designed for precise soldering work on the smallest electronic components and ensures exact, clean solder joints.

The tip corresponds to the Weller XTH soldering tip and is therefore compatible with various Weller soldering stations, making it easy to replace and use in existing work environments. Thanks to its beveled shape, the heat is transferred directly to the solder joint, which is particularly advantageous for delicate work in electronics production or repair.

With the XT-3008, you get a reliable soldering tip for high-quality, precise results in industrial or professional applications.
• corresponds to Weller soldering tip XTH

Item no.	**WL27547**
Model	XT-3008
Manufacturer	PLATO
Manufacturer article no.	XT-3008
GPSR manufacturer data	TECHSPRAY ITW Saffierlaan 5 NL-2132 Hoofddorp www.techsprayeu.com
Sales unit	1 piece
Content unit	1 piece

Product series	XT Series
Tip series	XT-series
Tip dimensions	0,8 x 0,4 mm
Tip shape	chisel-shaped
Tip alignment	sloped
