Soldering tip XT series, chisel-shaped, 1.6 x 0.8 mm

The XT-3016 soldering tip from PLATO's XT series is a chisel-shaped, beveled tip measuring 1.6 x 0.8 mm. It is ideal for precise and even soldering work, especially on medium-sized electronic components.

This tip corresponds to the Weller soldering tip XTA and is therefore compatible with numerous Weller soldering stations. The beveled shape ensures targeted heat transfer to the solder joint, enabling clean, controlled solder joints.

The XT-3016 offers professional quality for use in electronics production, repair or for precise soldering of circuit boards and components that require constant heat input.
• corresponds to Weller soldering tip XTA

Item no.	**WL27548**
Model	XT-3016
Manufacturer	PLATO
Manufacturer article no.	XT-3016
GPSR manufacturer data	TECHSPRAY ITW Saffierlaan 5 NL-2132 Hoofddorp www.techsprayeu.com
Sales unit	1 piece
Content unit	1 piece
Product series	XT Series
Tip series	XT-series

Tip dimensions	1,6 x 0,8 mm
Tip shape	chisel-shaped
Tip alignment	sloped
