

Rework tip RxP series Quad for PLCC 44

RxP-Blade/Quad Solder Tip Cartridges are the rework tips for the Metcal MFR-series soldering systems. The second letter in the part number designates the temperature series. RFP-Cartridges are nominally 390 °C. Metcal recommends the RFP temperature series for most applications. However, there is a higher temperature range designated RCP, nominally 450 °C, for high temperature and thermally demanding applications. Can be used with leaded and lead-free solder. The Metcal SmartHeat®-Technology“ will adjust the power levels during soldering to suit the application.

- suitable for ceramics and applications with high thermal requirements
- suitable for MFR-1100 and MFR-220 series
- suitable for PLCC 44

Item no. **WL27554**

Model **RCP-QD6**

Products for the electronic industry

Manufacturer	OKI
Manufacturer article no.	RCP-QD6
GPSR manufacturer data	OK International Ltd Eagle Close, Chandlers Ford GB-SO53 4NF Hampshire www.ok-international.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Product series	RxP Series
Type of tip	Quad-Rework Lötpatronen
Tip series	RxP
SMT design	PLCC 44
Tip shape	quad
Tip alignment	straight
Matching handpiece	MFR-H1_SC
ESD compliant	no

Other versions

Item no.	SMT design
WL27554	PLCC 44
WL27556	PLCC 52
