

## i-CON VARIO 2, 2 channel soldering and hot air station, with CHIP-Tool vario 2x40 W

- Ersa i-CON VARIO 2 with i-TOOL AIR S and CHIP TOOL VARIO
- The i-CON VARIO 2 multi-channel soldering and desoldering station provides the professional soldering user with two simultaneously usable soldering tools
- Parallel to the new, ergonomic hot air iron i-TOOL AIR S (200 W), the 150 W strong i-TOOL can be used as another soldering tool for classic soldering or the new desoldering tweezers CHIP TOOL VARIO (80 W).
- Other Ersa soldering tools can be used as an alternative
- The compact, ESD safe supply unit offers, as usual in the i-CON family, the usual simple and clear operability.
- As with the larger i-CON VARIO 4, interfaces to Ersa solder fume extraction units and preheating plates are just as self-evident as the simple and secure configuration of the station via a microSD memory card.

item number

WL27714

Products for the electronic industry

model	i-CON VARIO 2
manufacturer	ERSA
manufacturer item number	01CV2000AC
length with packaging	325 mm
width with packaging	250 mm
height with packaging	260 mm
order unit	1 piece
content unit	1 piece
RoHS conform	yes
power	200 W
nominal power	200 W
voltage	230 V
supply voltage	230 V
secondary voltage	24 V
temperature range °C	50 – 550 °C
suitable tips	472, 462
design soldering tip	continuous soldering tip
station type	hot air station, soldering station
digital display	yes
compensational heaters	010102J
suitable handle	0470BRJ, 0460MDJ
ESD safe	yes
