

ESD men coat short sleeve CONDUCTEX[®], white size XL

Discover the SafeGuard ESD work coat Pro Line in short version - an indispensable piece of workwear for anyone working in electronics production. With its half-length, this ESD coat offers optimum freedom of movement without compromising on safety. The conductive yarn in a 4x4 mm grid ensures a typical point-to-point resistance of $R_{p-p} = 10^5 - 10^7$ Ohm to effectively prevent electrostatic discharges.

The SafeGuard Pro Line is characterized by its versatility, as it is available in a unisex version. Practical details such as the two side pockets, the press studs on the sleeves and the ESD logo on the breast pocket ensure optimum functionality in everyday working life. The ESD coat has a row of buttons with fabric cover, a lapel collar and a concealed button placket for a professional appearance.

Made from 63% polyester, 33% cotton and 4% carbonized yarn, the SafeGuard work coat Pro Line offers not only comfort but also durability. The ESD compliance and certification ensure that you are optimally protected in every situation.

Convince yourself of the quality and functionality of the SafeGuard ESD work coat and invest in your safety in the workplace.

A new feature is that you can now also have the SafeGuard ESD work coat individually printed. You can find more information on this on our printing page:
