

## Mini Probe Set for Model 840, with ESD case

- for point-to-point resistance measurements on small packages (e.g. SMD blister tapes, conveyor belts, thermoformed trays etc.)
- Measurements in wells possible
- even pressure due to spring-loaded electrode pins
- conductive contact rubber ( $R < 20 \text{ Ohm}$ )
- exchangeable measuring head
- incl. works calibration certificate
- complies with IEC 61340-4-10

item number	WL28225
model	7220.840.SET
manufacturer	WARMBIER
manufacturer item number	7220.840.SET
