

ESD LED magnifier lamp TEVISIO - RLLQ 48/2 AR, 3.5 dpt.

As the No. 1 in mobility and vision quality, Waldmann's TEVISIO ESD LED magnifier lamp is irreplaceable where the highest demands are placed on vision. Now Waldmann brings a new generation of the best magnifier luminaire for the electronics industry. What remains is the innovative rod technology and the perfect lighting concept of the Tevisio magnifier luminaire from Waldmann. Brand new are the higher color rendering value and the more homogeneous light distribution. Particularly noteworthy is the tool-free removal of the lens for cleaning, replacement or exchange. The optional new 6 dpt. plastic lens allows a higher magnification factor at any time if desired. It also impresses with very high color rendering values, absolutely homogeneous light distribution, optimum support for evaluating and verifying color and surface qualities, and with a perfectly clouded aperture that prevents disturbing reflections.
