

## Desoldering tip Micro Stick Switch, C245136

The C245-136 desoldering tip from the C245 series has been developed for the T245 handpiece and is ideal for desoldering small SMD components, especially micro stick switches.

The straight tip in a special shape enables precise work, while the integrated heating ensures a constant temperature for clean desoldering.

With an overall length of 100 mm and a weight of just 8 g, the tip sits comfortably in the hand and supports efficient soldering and desoldering work.
