

Solder fume extractor, Zero Smog 20T

- For connection of up to 20 soldering irons
- Electronically controlled, maintenance-free turbine generates required vacuum
- 4 integrated rollers for increased flexibility of the unit
- Mobile device for centralised or decentralised use
- Use with a pipe system of up to 200 m (7874 in)
- USB connection, RS232 interface
- The Zero Smog 20T is designed for direct extraction at the soldering iron. Up to 6 Weller FE soldering irons can be connected directly. Up to 20 FE soldering irons indirectly via the 50 pipe system available as an accessory. The powerful, maintenance-free turbine generates a vacuum of max. 10,000 Pa and is electronically controlled. The operating hours and the level of filter contamination are also recorded electronically. The filter system achieves a separation efficiency of 99.95 % according to EN 1822 with a particle size of 0.16 μ m.

item number	WL28558
model	ZERO-SMOG-20T
manufacturer	WELLER
manufacturer item number	T0053670699N
length	450 mm
width	450 mm
height	695 mm
order unit	1 piece
content unit	1 piece
frequency	50/60 Hz
voltage	230 V
vacuum max	10000 Pa
noise level	51 dBA
volume flow max	100 m ³ /h
