ESD sandal ARIZONA ESD Birko-Flor 89430, blue, normal, 42

Due to its high wearing comfort and the anatomically shaped original cork-latex footbed, the two-strap sandal Arizona by BIRKENSTOCK is suitable for daily use at work. Thanks to its additional ESD equipment against spontaneous static discharges, the model is ideally suited for use in ESD areas. The combination of the footbed with the specially developed sole guarantees a permanently soft discharge and protects sensitive components. All BIRKENSTOCK ESD models are tested according to the specifications of DIN EN 61340 and meet the requirements in the ESD range from 1.0 x 105 to 3.5 x 107 Ohm.
Inner sole: Leather cover sole
The skin-friendly, flexible leather cover sole nestles gently against the foot and adapts to its contours. The open-pored and therefore particularly breathable surface ensures a pleasant foot climate even during vigorous physical activity.

- Anatomically shaped cork-latex footbed in ESD design
- Upper material: Birko-Flor®
- Details: individually adjustable metal buckles
- Cover sole: suede leather

• Sole: cushioning EVA outsole in ESD design
• ESD protection tested according to EN 61340

Item no.	WL28656
Model	89430
