ESD Sandals MILANO 39 black, normal, heel strap

The strap sandal is equipped with an ESD footbed and a specially developed sole. Thanks to the adjustable heel strap and the two straps on the instep, the shoe can be optimally adapted to the foot. Joints and muscles are thus relieved so that the shoe is ideally suited for daily wear. The ESD shoe meets the requirements in the ESD range from 1.0 x 105 to 3.5 x 107 Ohm.
