Lens adaption for lens +50, for FHD PRESTIGE, HD PRESTIGE

The lens adapter for lens +50 from TAGARNO is specially designed for the FHD PRESTIGE and HD PRESTIGE microscope models. It enables the use of the 26 mm lens with a 5x zoom (0.14) and thus ensures precise, detailed magnifications for inspection and measurement tasks.

Thanks to the precisely fitting design, the adaptation can be attached quickly and easily, allowing efficient switching between different lens powers. This increases flexibility in microscopy and enables adaptation to different objects, lighting conditions and examination requirements.

With the lens adapter, users benefit from sharp images, high accuracy and convenient handling. It is a practical accessory to fully utilize the performance of the FHD PRESTIGE and HD PRESTIGE microscopes and ensure professional image display.

Item no.	WL28887
Model	490640
Manufacturer	TAGARNO
Manufacturer article no.	490640
GPSR manufacturer data	TAGARNO AS Finlandsvej 2 DK-8700 Horsens www.tagarno.com
Sales unit	1 piece
Content unit	1 piece
Zoom	5x/ 0.14
Diameter (lens)	26 mm
ESD compliant	no
