

Special soldering tips, for soldering iron T245, C245773

The JBC C245773 soldering tip 0.8x0.3mm is the ideal solution for precise and efficient soldering in professional electronics workshops. As part of the extensive C245 cartridge series, this chisel tip insert impresses with its high-thermal technology, which enables heat transfer to be optimized by up to 40%. Thanks to the robust long-life coating with a reinforced iron layer, this soldering tip insert is extremely durable and offers up to five times the service life of conventional products.

The C245773 has been specially developed for general soldering purposes and fits seamlessly into all T245 soldering iron handpieces, including standard, blue grip and nitrogen versions. The fine chisel tip with 0.8mm width and 0.3mm thickness is ideal for fine soldering work on SMD components and PCBs or for demanding through-holes. Professional users benefit from the instant heat-up function of the long-life JBC tip and the innovative sleep and hibernation features of the JBC station, which reduce energy costs and keep the temperature optimally stable. With a compact weight of only around 7g, the insert is extremely handy, enables fast temperature peaks and precise work for longer applications.

The C245773 Cartridge Chisel Tip stands for uncompromising soldering performance, high thermal efficiency, professional durability and versatile application options - ideal for electronics production, repair and maintenance.

- High thermal tip, 40% more efficient heat transfer to the tip
- with reinforced iron layer
- for special application

Article no.	WL30376
Model	C245-773
Manufacturer	JBC
Manufacturer article no.	C245773
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length with packaging	110 mm
Width with packaging	12 mm
Height with packaging	12 mm
Sales unit	1 piece
Content unit	1 piece
Product series	C245
Tip series	C245
Incl. integrated heating	yes
Tip dimensions	0,8 x 0,3 mm
Tip length	10 mm
Tip shape	chisel-shaped
Tip alignment	straight
Suitable soldering iron	T245
Matching handpiece	T245
Matching handpiece	T245
ESD compliant	no
