

Ionizer SOB-2S (N) overhead model, 2 fans.

SIMCO ionizing units can be used to neutralize electrostatic charges at workplaces and in ESD service areas. The integrated fan is infinitely variable. With the ionizing unit, the ionization is based on high-frequency alternating current (HF-AC).

- Neutralization of electrostatic charges at workplaces
- Complies with the requirements of DIN EN 61340-5-1
- Integrated blower adjustable in 4 steps
- Built-in automatic cleaning brush for emitter tips
- Remote control for: Switching on and off, fan speed adjustment, emitter cleaning
- Ionization based on steady-state DC
- Self-balancing $\pm 2V$
- Control inputs and alarm output
- Replaceable air filters
- Ionization monitoring with alarm indication and buzzer
- Dimensions: 757 x 84 x 160 mm (W x H x D)
- 2 fans

item number	WL30542
model	7520.SOB.2S.N
manufacturer	SUNJE HI-TEK
manufacturer item number	7520.SOB.2S.N
width	757 mm
height	84 mm
depth	160 mm

order unit	1 piece
content unit	1 piece
supply voltage	240 V
Air Flow	vierstufig
ionic balance	self-balancing +/- 2 volts
ESD safe	yes
