

Soldering tip PHT series, conical fine, 0.5 x 10 mm

The PHT-652035 soldering tip from OKI's PHT series has been specially developed for precise soldering work on temperature-sensitive components. The fine, conical tip with a diameter of 0.5 mm and a length of 10 mm enables precise work on the smallest soldering points and sensitive components.

The straight tip ensures precise heat conduction and consistent soldering quality for all applications. It is compatible with the PS-900 and PS-CA1 handpieces and can be easily replaced to keep the soldering station permanently ready for use.

The PHT-652035 is ideal for repairs, prototype construction or the production of electronic components where precision and gentle temperature control are crucial. Thanks to the high-quality workmanship, the tip is durable and guarantees consistently precise results even with repeated use.

- for temperature sensitive applications

Item no.	WL30830
Model	PHT-652035
Manufacturer	OKI
Manufacturer article no.	PHT-652035
GPSR manufacturer data	OK International Ltd Eagle Close, Chandlers Ford

GB-SO53 4NF Hampshire
www.ok-international.com

Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Product series	PHT Series
Tip series	PHT
Tip length	10 mm
Tip width	0.5 mm
Soldering tip diameter	0.5 mm
Tip shape	conical
Tip alignment	straight
Matching handpiece	PS-900, PS-CA1
ESD compliant	no
