

Power supply LED 20 W

The 20W LED power supply unit from PS is specially designed for operating LED lighting. It provides a stable power supply with 240V input voltage, ensuring uniform brightness and reliable operation of the connected LEDs.

The power supply unit is designed for direct operation, is not dimmable and is suitable for a wide range of applications in interior lighting, displays or decorative LED systems. Compact and robust in design, it is easy to install and offers reliable performance for long-term operation.

The power supply is sold as a single unit, ready to use for any LED application.

- Power supply specially designed for LED illumination

Item no.	WL31266
Model	00570527
Manufacturer	PS
GPSR manufacturer data	Pfeifer und Seidel GmbH Maurerstraße 15 DE-35236 Breidenbach www.ps-industry.com
Sales unit	1 piece

Content unit	1 piece
Incl. battery	no
Rated power	20 W
Voltage	240 V
Dimmable	no
