

Storage board Sintro inclinable for Euronorm container, 860 x 600 x 55 mm

The infinitely tiltable shelf for Euronorm containers offers versatile adjustment options. With a stepless tilt adjustment of up to 30°, it enables optimum alignment. The depth variation of +/- 50 mm allows flexible adaptation to different requirements. With a height of 55 mm and a board rail at both the front and rear, it provides secure support for Euronorm containers. The maximum surface load is 50 kg, and the dimensions (W = 860 mm, D = 600 mm) make it suitable for a CAR width of 970 mm. A versatile and adaptable storage board for various requirements.

- infinitely variable up to 30° inclination adjustment
- suitable for CAR width 970 mm
- +/- 50 mm depth variable
- H = 55 mm
- Board strip front and rear
- max. surface load: 50 kg

item number	WL31533
model	69.506.70
model line	Sintro
manufacturer	KARL
manufacturer item number	69.506.70
width	860 mm
height	55 mm
depth	600 mm
order unit	1 piece
content unit	1 piece
colour manufacturer	light gray (RAL 7035)
Colour	grey
load capacity	55 kg
ESD safe	yes
