

ESD grounding plug, 1 x 10 mm push button, yellow

The Safeguard ESD grounding plug is used to protect electronic devices and components from damage caused by electrostatic discharge. The plug is yellow in color and has a 10mm push button. The push button can be used to discharge static electricity from people or objects to prevent damage to electronic equipment and components. The 10mm sized button allows for easy handling. The yellow design of the plug helps to quickly identify and access it. By using Safeguard's ESD grounding plug, you can be sure that electronics in the environment are protected from damage caused by electrostatic discharge.

- without cable for EU socket outlet
- Connection: 1x10 mm push button
- additionally 2 x 4 mm safety sockets
