

PGT120.COM Data Terminal with printer

Description

The "Data Terminal", consisting of a control unit and a label printer, logs the measurement data of the Personnel Grounding Tester PGT120.COM. If the test is positive, a label with the test result and measured values can be printed.

- Printout of self-adhesive labels with test result, date and measured values for ISO measurement
- Storage of measurement results over a period of four weeks
- List view of the measurement data with colored highlighting in case of incorrect measurements
- Printout of the measured values as a list
- Simple configuration of the terminal via WEB interface
- Language setting German / English

Product details

item number	WL32129
manufacturer	WARMBIER
manufacturer item number	7100.PGT120.COM.D

Products for the electronic industry

model	7100.PGT120.COM.D
scope of supply	Data Terminal 7100.PGT120.COM.DT Label printer SPL650 Labels 36 x 67 mm Operating Instructions (German/English)
order unit	piece
