

Ionizing Unit SBL-15S, table-top model

With an ionization device from SIMCO, electrostatic charges can be neutralized at workplaces and in the ESD service area. The integrated blower is infinitely adjustable. In the ionizing unit, the ionization is based on high-frequency alternating voltage (HF-AC).

- Neutralisation of electrostatic charges at workplaces or in the service area
- Ionisation range 30 x 120 cm
- Automatic cleaning brush for the emitter tips
- Ion Balance Display
- alarm output
- Self-balancing of the offset voltage ±2V
- blower adjustable in 2 steps
- Ionization based on high voltage (steady state DC)
- Ozone generation <0.05 ppm (distance 15 cm)
- Dimensions: 212 x 254.5 x 99 mm (W x H x D)

item number	WL32146
model	7520.SBL.15S
manufacturer	SIMCO
manufacturer item number	7520.SBL.15S
width	212 mm
height	254 mm
depth	99 mm
order unit	1 piece
content unit	1 piece
supply voltage	230 V
Air Flow	zweistufig
ionic balance	self-balancing +/- 2 Volt
ionization range	30 x 120 cm
ozone production	<0.05 ppm (distance 15 cm)
ESD safe	yes
