

Ionizing nozzle SPN11S, nozzle with proximity sensor

Description

- with proximity sensor
- Ionizing nozzle SPN11, for installation in machines
- Neutralization of electrostatic charges in machines
- Ionization based on high frequency alternating voltage (HF-AC)
- Piezoceramic high voltage transducerSupply voltage 24V DC / 100-240V AC with plug-in power supply unit (included in delivery)
- Self-balancing $\pm 15V$
- Various nozzle attachments available (optional)
- alarm output
- Ozone generation 0,005 ppm (15 cm distance)
- Dimensions: 28 x 67 x 130 mm (W x H x D)

Product details

item number	WL32164
manufacturer	WARMBIER
manufacturer item number	7520.HF.SPN11.S
model	7520.HF.SPN11.S

Products for the electronic industry

width	28 mm
height	67 mm
depth	130 mm
order unit	piece
supply voltage	240 V
ionic balance	Self-balancing $\pm 15V$
ozone production	0.005 ppm (15 cm distance)
