

Dispensing needle 0.5", straight, gauge 23, orange, straight tip shape

The dosing needle 0.5" GA 23 straight in bright orange from NORDSON EFD offers maximum precision for the precise application of liquids, adhesives or soldering agents. With an internal diameter of 0.33 mm, it enables the finest dispensing, ideal for electronics production, laboratory applications or model making projects.

The needle has a straight tip, which guarantees an even material flow and prevents deviations during the dispensing process. The capillary length of 0.5 inches (≈12.7 mm) allows access even to hard-to-reach areas. The robust all-metal design ensures long-lasting precision and reliability for repeated applications.

Thanks to the orange marking, the needle can be easily identified and differentiated from other sizes or diameters by color - for quick and safe use in everyday work.

Item no.	WL32378
Model	5123-B / 7018319
Manufacturer	NORDSON EFD
Manufacturer article no.	7018319
GPSR manufacturer data	Nordson Deutschland GmbH Kapellenstraße 12 DE-85622 Feldkirchen www.nordson.com
Sales unit	1 piece
Content unit	1 piece
Colour	orange
Incl. battery	no
Gauge	GA 23
Capillary length (inch)	0.5 in
Tip type (dispensing needles)	straight tip
Inner diameter	0.33 mm
Tip shape	straight
