

Lynx EVO Stereomicroscope with Ergo Stand and Rotating Optics

The eyepieceless stereo microscope allows a 3-dimensional image representation in first-class quality in a comfortable working position. The Lynx EVO is an ergonomically designed stereo microscope and does not require any adjustment by the operator. With the zoom factor 10:1 the magnification of 6x - 60x can be increased to 120x with additional lenses. Optionally, a camera package can be added, which allows seamless image/video storage.

- Unique 3D images
- Lifelike view of the object
- Freedom of movement of the head
- Suitable for spectacle wearers without restrictions
- Ergonomic working posture
- Protection against pollution and risk of infection
- Coarse and fine adjustment for precise focusing
