

Flexi table tripod

The PULCH & LORENZ Flexi stage stand is the ideal solution for precise and flexible microscopy applications. With its variable column and mounting kit, it can be individually adjusted to the weight of the microscope to ensure maximum stability. The simple disassembly allows easy transportation, while the secure height lock ensures precise positioning in any position. The stand can be easily mounted on a table, either screwed or fixed with an optional table clamp. An optional screen mount is also available to make working even more efficient. With the PULCH & LORENZ Flexi table stand, you are ideally equipped for professional microscopy applications.
