

SONOREX TECHNIK RM 210 UH Ultrasonic cleaning bath with heater

High performance ultrasonic cleaning bath with heating for industry, service and maintenance. The welded oscillating tank made of stainless steel 1.4404, 2 mm guarantees maximum durability even with intensive use.

A modular design allows various configurations from a single cleaning tank to a complete cleaning line.

The integrated overflow pocket is used to connect an oil separator to separate cleaned oil films from the cleaning solution.

- Spray tube for removing floating oils from the liquid surface into the overflow pocket
- Level switch as dry running protection for heater and ultrasonic transmitter
- Height adjustable feet

Ultrasonic cleaning unit, SONOREX SUPER series

□ Ultrasound 40 kHz, with drain

- ▢ Dimensions: 930 x 750 x 800 mm (L x W x D)
