

## Sonorex Technik RM 210 U ultrasonic bath

---

Ultrasonic bath without heating for industry, service and maintenance. The welded oscillating tank made of stainless steel 1.4404, 2 mm guarantees highest durability even with intensive use.

A modular design allows various configurations from a single cleaning tank to a complete cleaning line.

The integrated overflow pocket is used to connect an oil separator to separate cleaned oil films from the cleaning solution.

- Spray tube for removing floating oils from the liquid surface into the overflow pocket
- Level switch as dry running protection for heater and ultrasonic transmitter
- Height adjustable feet

Suitable baskets, lids and cleaning and disinfection concentrates are available as accessories for optimally coordinated ultrasonic cleaning.

Ultrasonic cleaning unit, SONOREX SUPER series

without heating
