

## ESD precision electronics side cutter, for soft materials, 125 mm

ESD precision pliers for the finest cutting work, e.g. in electronics and precision mechanics. Very precisely ground, sharp cutting edges with very small facets for exact cuts on sensitive electronic components; also without facet for flush cutting. Precision cutting edges additionally induction hardened, cutting edge hardness approx. 64 HRC. Approx. 20 % less weight than conventional electronic pliers. Bolted joint with particularly carefully manufactured joint surfaces for uniform, low-friction movement in the entire opening range. Smooth-running double spring for smooth and even opening. Ergonomically optimised multi-component sheaths. for an optimised flush cutting result on soft materials. for assemblies with tight tolerances, for precise wire end configuration. - cutting values soft wire (diameter): Ø 0,1 - 1,3mm - jaw length (B): 11mm - jaw thickness (at joint) (D): 6,5mm - head width (A): 11mm - ESD: Yes
