

PU foam, conductive, black

The conductive PU foam from WARMBIER is the ideal solution for safely storing, cushioning and protecting sensitive electronic components. Measuring 170 x 50 x 6 mm, it fits into crates, boxes or transport packaging and provides reliable cushioning.

The foam is electrically conductive and therefore protects sensitive electronics from electrostatic discharge (ESD). Its soft, black surface guarantees flexible adaptation to various components, while the conductivity ensures safe leakage current.

Thanks to the combination of soft, dimensionally stable and conductive, this foam is particularly suitable for ESD-critical components, modules, connectors or circuit boards - both in storage, shipping and during assembly.

- 170 x 50 x 6mm
- electrically conductive
- black
- soft

Item no.	WL33857
Model	4470.06.0050.0170
Manufacturer	WARMBIER

Products for the electronic industry

Manufacturer article no.	4470.06.0050.0170
GPSR manufacturer data	Wolfgang WARMBIER Untere Gießwiesen 21 DE-78247 Hilzingen www.warmbier.com
Length	170 mm
Width	50 mm
Height	6 mm
Sales unit	1 piece
Content unit	1 piece
Colour	black
Colour	black
ESD compliant	yes
