

Circlip pliers, external, Classic Z 34 0 01 A0/140mm Classic, Circlip pliers, male

The external circlip pliers Classic Z 34 0 01 A0 from WIHA have been specially developed for fitting and removing external circlips on shafts or axles. They offer maximum precision and reliability for professional use in workshops, industry or for demanding DIY projects.

Manufactured from high-quality chrome-vanadium-molybdenum steel and drop-forged, the pliers impress with their stability and durability. The cylindrical precision tips and straight head shape enable precise work with external circlips in the diameter range from 3 to 10 mm.

With a handy length of 140 mm, the pliers sit comfortably in the hand and ensure effortless, safe working. The classic type A0 design complies with DIN ISO 5254 and guarantees standardized, professional use.
